

## A Must Have a New Ferrari Watch

Scuderia Ferrari Watches celebrates a new season of motor racing with the introduction of the Aerodinamico watch, a sleek, stylish design inspired by the smooth, flowing lines of the famed Ferrari models.

Drawing on the rich heritage of this iconic Italian brand, this new watch is bound to be a favourite with motor sport fans and car enthusiasts alike.

With a Ferrari red case, the Aerodinamico features a black dial with double stick hour markers and the unique prancing horse logo at 12 o'clock. A backlit digital display with a date and alarm function also allows secondary timezones to be set, ensuring you never miss a race.

A black silicone strap designed to allow the wrist to breathe makes this watch a great everyday accessory, whether you're behind the wheel or cheering on your favourite team at the side of the track. The classic tongue buckle is engraved with the Ferrari prancing horse shield and the strap secured by a shield shaped keeper. Make sure you are on the starting grid with this new Aerodinamico watch. The RRP is £175.
