## New Louis Chevrolet Watch Ambassador

Ice hockey medallist Sarah Foster from the 2014 Olympic Games in Sochi in its has become the new ambassador of Louis Chevrolet and the Swiss watch manufacturer has created a new model which is now available.

With simplicity and elegance, the watch embodies the feminine side of the brand and it is adorned with fashionable colours that will soften his mechanical heart.

Founded in the home of watch component manufacturing, the Louis Chevrolet Watch Company brings together the know-how of the Swiss Jura, where racing driver Louis Chevrolet was born.

Thanks to the experience and traditions of the region, the company has complete command of the manufacturing process and this makes it possible to witness the production of a watch from conception to the finished product.
