

The L200 from Mitsubishi

By Ian Lynas

Mitsubishi Motors is pleased to announce that the Mitsubishi L200 now comes with the longest warranty of any pick-up truck in the UK marketplace, providing customers with peace of mind for a class-leading five years/125,000 miles.

The pick-up market has seen phenomenal growth in the last decade and much of that can be attributed to the continued success of the L200, and its commercial models.

Despite the current market conditions, the L200 has been selling in impressive numbers and still continues to be a top choice amongst pick-up customers.

The Mitsubishi L200 provides the most versatile range in the marketplace offering

three cab configurations, single, club, and double, with a wide spectrum of specifications, from the no-nonsense workmanlike 4Work models, presenting durability and functionality, through to the comfort and luxury of the range topping Barbarian and Walkinshaw models.

The first pick-up truck to receive a 4 star NCAP safety rating, the L200 is the only pick-up truck which has a 4x4 system so advanced that it can be driven in 2WD or 4WD, even on dry roads.

The Mitsubishi L200 remains just as rugged as ever, but with more

equipment, more style, greater performance and more power.

Being rugged doesn't mean the L200 isn't without an environmental conscience either, with detailed improvements being made to the truck allow it to be one of the lowest emitting and fuel-efficient pick-ups in the marketplace.
